- ◇ Anti Photo-Aging Property

Anti Pollution Mist (Face and Hair)

Increasing levels of Air pollution have become a concern for skin and hair health. It is known that irritants in the air age skin making it look dull and damaged. Similarly, hair is also damaged by pollutants causing it to look dull, dry and damaged. This can cause roughness of the hair and breakage.

This on-the-go Anti Pollution Mist is the solution for a Perfect Pollutant Protection. By forming a non-occlusive matrix, it prevents the pollution particles from damaging the skin & hair.
